Take advantage of **innovation from LG** with *DANIELS*

Commercial laundry equipment from LG offers state-of-the-art technologies with superior reliability and greater energy efficiencies.

- **Cutting-edge energy efficiencies**

The LG dryers streamline energy usage through its front load design and innovative G-force extraction system – effectively reducing consumption, strengthening your green initiatives. LG card and coin dryers boast the shortest dry times in the industry, 30 minutes per 13 lbs of laundry, delivering greater energy efficiency than any other commercial dryer.

- **Experts in design**

The LG brand evokes expertise and excellence in appliances. These advanced laundry systems ensure your laundry rooms are now more dependable, sustainable and provide the superior wash results.

Electric Dryer Specifications

Color	White
Electrical	120/240V, 60Hz, 26 amps
Dimensions (WxDxH)	27" x 30" x 38 11/16"
Weight	130.9 lbs.
Drying Capacity	7.1 cu. ft. (IEC) / 22.5lb(10.2kg)
Dry Cycles	4
Operation Time (normal)	45 minutes
Body Material	Painted steel
Top Plate Material	Porcelain
Safety Features	Dual Heating Sensor Over-Current Breaker
Additional Programming Functions	Drying Time Control Change Vend Price Control Special Day Price Control Extra Drying Selection Auto Restart Blackboard Transaction System™ eSuds™

Gas Dryer Specifications

Color	White
Gas Type	LNG
Electrical	120V, 60Hz, 5 amps
Dimensions (WxDxH)	27" x 30" x 38 11/16"
Weight	130.9 lbs.
Drying Capacity	7.1 cu. ft. (IEC) / 22.5lb(10.2kg)
Dry Cycles	4
Operation Time (normal)	45 minutes
Exterior Material	Painted steel
Top Plate Material	Porcelain
Safety Features	Dual Heating Sensor Over-Current Breaker Dual gas cut-off system
Additional Programming Functions	Drying Time Control Change Vend Price Control Special Day Price Control Extra Drying Selection Auto Restart Blackboard Transaction System™ eSuds™
